Ultimate handpiece care from NSK - the handpiece experts

iCare

Automated handpiece lubrication unit

- Simple automated handpiece care for all major brands
- Processes up to four handpieces
- Consistent results time after time, which reduces repair costs
- More cost effective than using cans of oil

iClave plus

High performance B-type vacuum autoclave

- Easy to use
- Fast 25 min cycle for unwrapped loads
- 35 min for pouched loads
- Ideal for implant kits
- Includes Helix Test + Strips

AFFORDABLE, RELIABLE & RAPID VACUUM STERILISATION

As a global leader in dental handpiece manufacture and decontamination, NSK SMART 3 Decontamination solutions let you focus on protecting your patients from the risk of transmission of harmful pathogens by improving the standard of handpiece reprocessing in the three crucial areas of cleaning, lubrication and sterilisation.

SAFER – compared with inconsistent manual processes and the frequent use of incorrect autoclaves / cycles*.

MEASURED – employing proven systems that dose the correct volumes of cleaning and lubricating solutions, handpieces can be sterilised using the correct autoclave/cycles – S or B type vacuum.

AFFORDABLE – ensures cost savings, both in terms of the decontamination equipment and consumables required, over-reliance on expensive inventory and the reduction in on-going maintenance costs for both handpieces and decontamination equipment.

REPRODUCIBLE – provides consistent results, time after time, by removing the ambiguities associated with manual processes and a hit or miss approach to sterilisation.

TIME SAVING – decreases the time required to decontaminate handpieces, helping improve throughput and reducing costly delays in the process and for downtime as a result of breakdowns.

PROTECT IT All-Inclusive Maintenance and Breakdown Contracts for NSK autoclaves from just £645pa.

NSK Autoclave contracts are designed to protect your investment. Our team of experienced engineers are professionally trained and qualified to provide the level of care required to keep your investment in tip-top condition. With nationwide coverage we can provide the level of cover that suits your requirements – call for details.

<p>One annual maintenance visit or every 1500 cycles</p>	<p>Additional maintenance visit for units exceeding 1500 cycles</p>	<p>All service parts and service sundries included</p>	<p>All breakdown calls*</p>
<p>All breakdown parts including labour*</p>	<p>All engineer travel in the UK†</p>	<p>Free on-site operator training</p>	<p>Free technical software upgrades</p>

iMax S

Reliable and rapid S type vacuum autoclave - all the benefits of a non-vacuum autoclave with the ability to sterilise handpieces correctly^[1].

- 18 min Flash cycle for unwrapped solid loads
- Rapid S type handpiece cycle in just 25 minutes
- The perfect upgrade for all non-vacuum autoclaves

Only £3,070

£350** install & delivery
Rent for just £155pm[†]

RRP £3,224. ** For Scotland, call for details.
10 month interest-free finance available, subject to approval.

iClave plus

High performance B Type vacuum autoclave - enhanced sterilisation of all loads, in rapid time.

- 20 min Flash cycle for unwrapped loads including handpieces
- Fast 35 minute B Type cycle for all load types, including implant kits
- The tried and trusted choice for your next B type vacuum autoclave

From Only £3,995

£350** install & delivery
Rent for just £155pm[†]

RRP £6,197. ** For Scotland, call for details.
10 month interest-free finance available, subject to approval.

iCare

Automatically cleans and lubricates handpieces. In line with the NSK SMART³ decontamination protocol the iCare offers significant benefits over manual methods.

£2,000 of FREE NSK Handpieces

2 x S-Max M900L turbines,
FX25m 1:1 contra-angle, FX65m straight.

Or Half Price £1,285

Rent for just £73.95pm[†]

RRP £2,570. C2 Model shown.
Compressed air connection required.

COPPER CHAMBER TECHNOLOGY IMPROVES PERFORMANCE, RELIABILITY AND AFFORDABILITY

- 18 litre high efficiency copper chamber improves total cycle times for faster throughput.
- Thermo-dynamic drying protects instruments from corrosion, discolouration and re-contamination.
- Helps extend the life of your rotary instruments, reducing the lifetime cost of handpiece repairs.
- Enhanced reliability and serviceability reduces your ongoing autoclave maintenance costs.
- Less repairs, longer lasting instruments, long term savings.

Learn more about the benefits of NSK Copper Chamber Technology

The NSK iClave plus is a fantastic autoclave, as it has the perfect 18 litre capacity and the instruments come out dry which is a real bonus that my nurse loves. We have worked with NSK for a number of years and their equipment and service are outstanding on every level.
